

Imaging & Backroom Services

DCI Delivers the Best Imaging Technology and Backroom Services at the Best Value

As a recognized leader in imaging technology and services, DCI delivers the best in full-service image processing nationwide, including traditional item processing, backroom and mail services.

DCI provides complete Check 21 processing and end-to-end exchange, including fully-certified Fed Forward, Fed Return and Fed Receipt capabilities.

DCI also supports all methods of capture and CAR/LAR capabilities, including backroom, branch, merchant, and Proof21™ teller capture. But from capture to archival, we use only one image end-to-end, including statements, reporting, Fed delivery, online, etc.

Any way you choose, your items and images are processed faster with more accuracy, even late in the day, by highly-trained and experienced professionals using the most advanced technology available.

Our imaging technologies are also tightly integrated with iCore360®, giving you instant point-and-click access to all processed images online, front and back, with online signature verification.

Using our exclusive Proof21 option, your tellers can perform complete, end-to-end CAR/LAR item capture, proofing and balancing with just a few clicks — directly from the teller line.

You can also use our exclusive iCore360® Inter@ct:™ features to provide your customers with complete positive pay fraud protection, online statements and instant check images.

Everything is available using simple screen menus, icons, and double-click drill-downs so you can expedite tasks and inquiries for exceptions, transaction history, general ledger and more.

Contact us today to discover how our advanced imaging and backroom services can make you more competitive and profitable.

Core technology you can depend on . . . a relationship you can trust.

“They treat me more like a partner than a customer.”

Douglas Briggs —
President & CEO, First State Bank & Trust Co., KS

Award-winning Solutions and Service

iCore360 Intuitive Core *featuring:*
